Noah Torres

Plano, TX ▪ 512-966-9010 ▪ noahstorres98@gmail.com ▪ noahtorres98.com

SUMMARY OF QUALIFICATIONS
- Experience with front-end frameworks like React, Angular, and Next.js.
- Proficiency in HTML, CSS, and JavaScript for building responsive and interactive web interfaces.
- Experience in working with RESTful APIs and integrating third-party libraries.
- Knowledge of UI/UX principles to create intuitive user experiences.
- Adaptability to quickly learn new technologies and frameworks.
- Strong problem-solving and analytical skills to tackle complex coding challenges.

TECHNICAL SKILLS
- **Programming/Scripting Languages:** JavaScript, HTML/CSS, C#, MSSQL, Java, TypeScript, C/C++, PowerShell
- **Tools/Frameworks:** React, Argo's SDK, Angular, Spring Boot, AWS, Git, Jest, MVC

EXPERIENCE
Application Developer II   September 2023 – Present
ARGO Data Resource, Richardson, TX
- Collaborated with a team to design and implement a PowerShell-based data synchronization script for the Argo application, significantly improving company-wide productivity.
- Developed and integrated customized full-stack features for client projects, leveraging C#, JavaScript, HTML, and MSSQL to deliver high-quality solutions that enhanced customer satisfaction and boosted revenue.
- Ensured optimal application performance and stability by identifying and resolving defects in Argo's base product, utilizing JavaScript, HTML, MSSQL, and Argo's SDK.

Front-End Developer   June 2022 – August 2023
Cognizant Technology Solutions, Plano, TX
- Developed a venue request scheduling app using Angular and AWS as a training project, incorporating authentication and a booking interface for vendor scheduling.
- Collaborated on a mock Instagram app with Angular and Spring Boot, implementing essential features such as liking, messaging, posting, and authentication to build a dynamic platform.
- Created an in-house onboarding management tool using React and Spring Boot, automating tasks and optimizing the onboarding process to enhance productivity and reduce administrative overhead.

Tech Support Representative   June 2021 – June 2022
KeylessRide, Georgetown, TX
- Supported customer adoption of vehicle remotes and programming tools by offering setup assistance and troubleshooting, leading to increased satisfaction and sales.
- Executed precise key cutting and remote programming for vehicles, ensuring accurate and timely service that enhanced security and customer trust.
- Provided real-time technical support to locksmiths, ensuring successful key fob programming and boosting customer confidence in our products.

EDUCATION
Bachelor of Science in Computer Science   May 2021
Texas State University, San Marcos, Texas
- **Minor:** Mathematics
- **GPA:** 3.3
- **Relevant Coursework:** Web Programming, Data Structures and Algorithms, Database Systems
